Project AID 11087 – CIG n. 74443453D5

**Invitation to bid for Technical Assistance services for the project activities of the Italian  
Agency for Development Cooperation – AID 11087.**

ANNEX I  
GENERAL TERMS OF REFERENCE

---

**1. BACKGROUND**

Since 2013 Myanmar has been going through a process of developing a coordination mechanism with International Donors to have an effective management of Official Development Assistance (ODA) in the country and in January 2013 the first Myanmar Development Cooperation Forum (MDCF) between the Government of Myanmar and Bilateral and Multilateral donors was held. During the forum the Government of Myanmar presented the Framework for Economic and Social Reform (FESR) and the National Comprehensive Development Plan (NCDP) and the first Memorandum on development cooperation between the Myanmar Government and Development Partners (DPs), the Nay Pyi Taw Accord for Effective Development Cooperation (NPT-Accord), was signed. The NPT-Accord is aligned with the Busan principles regarding the Global Partnership and lists a number of mutual commitments for the Government of Myanmar and DPs in the area of development cooperation. The NPT-Accord also defined the first coordination mechanism between Government of Myanmar and DPs. In the following years the coordination mechanism has been restructured leading to its current organisation and to the establishment of the Cooperation Partners Group (CPG), the main forum for discussion and sharing of information regarding aid coordination and aid effectiveness. Current Work Streams include: CSO and INGO Liaison; Development Humanitarian Peace Nexus; Private Sector Development; Rakhine State Development; Development Assistance Policy-Development Effectiveness (DAP-DE); Urban Development; Governance (consisting of the following six stand-alone governance groups: Elections Support Group, Good Governance Group, Parliamentary Support Group, Public Administration Reform Group, PFM and Anti-Corruption Group, Rule of Law and Access to Justice Group). Moreover, Myanmar Government has established a new architecture for ODA management. First of all, a governmental oversight body, the Development Assistance Coordination Unit (DACU) was created. This unit assesses all initiatives to be funded through ODA and it follows the procedures of the *Development Assistance Policy*, whose implementation is ensured and supervised by the DAP Working Group (DAP WG), composed by the members of DACU, Partner in Development (PID) representatives from Civil Society Organizations (CSOs), International Non-Governmental Organizations (INGOs) and the private sector. In order to better dialogue with donors and implementing partners working in the priority development sectors for the government, a thematic coordination mechanism has been set up: *Sector Coordination Groups*

(SCG). This mechanism includes: the Joint Coordinating Body for Peace Process Funding (jointly with Ethnic Armed Organisations (EAO)); the Joint Coordinating Body for Rule of Law Centres and the Justice Sector and the following 10 SCG groups;

- Agriculture & Rural Development Sector Coordination Group
- Education & TVET Sector Coordination Group
- Energy & Electric Power Sector Coordination Group
- Environmental Conservation Sector Coordination Group
- Health Sector Coordination Group
- Job Creation Sector Coordination Group
- Macroeconomic Management Sector Coordination Group
- Nutrition Sector Coordination Group
- Social Protection & Disaster Management Coordination Group
- Transport & ICT Sector Coordination Group

These Bodies reflect the sectors and thematic/focus areas which the GoM has identified as priorities for development assistance and to which development assistance should be primarily targeted towards. SCG are led by Line Ministries and composed by personnel of relevant Ministries, Partner in Development (PID) representatives from Civil Society Organizations (CSOs), International Non-Governmental Organizations (INGOs) and the private sector

Moreover, 3 non-Sector coordination groups have been created:

- Yangon Urban Development;
- Statistical Quality Development;
- Gender Equality and Women's Development.

On February 26<sup>th</sup> 2018, the first *Development Effectiveness Roundtable* (DER), a coordination forum among the Government and all stakeholders involved in the development of the countries (including Private sector), was held. During this event, Myanmar Government has launched both the final version of the DAP and the first draft version of the *Myanmar Sustainable Development Plan* (MSDP), asking DPs to support Myanmar in its development in a coordinated manner.

Within this context the project "Support to the ODA coordination in Myanmar: Capacity Development of Donor Coordination (CAD-MM) – AID 11087" financed by the Italian Agency for Development Cooperation has the general objective to contribute to the improvement of ODA effectiveness in Myanmar within the Global Partnership framework. The specific objective of the project is to improve the ODA management capacities of Burmese institutions and the coordination among DPs and between DPs and the Government of Myanmar. More specifically, one of the project results aims to strengthen the CPG's Secretariat through Technical Assistance services.

With reference to this result, the Italian Agency for Development Cooperation in Yangon (AICS-Y) already provided Technical Assistance services to the CPG for a period of 6 months. At the end of this period an assessment has been done for checking if the local context had changed and for evaluating the services already provided. The CPG facilitators stated that the services provided were essential for the correct functioning of the coordination forum.

AICS-Y declared its availability in providing further Technical Assistance services for another 10-month period, as required by the members of CPG, who even confirmed the ToR.

Consequently, and in line with its commitments, AICS-Y will provide further Technical Assistance Services to the CPG.

## **2. INTRODUCTION**

The AICS-Y seeks to establish a Contract to ensure provision of Technical Assistance services to the project activities of the Italian Agency for Development Cooperation – AID 11087, to strengthen the capacities of the CPG's Secretariat and to improve the coordination of the ODA in Myanmar. The Technical Assistance services will be based on the needs identified by AICS-Y and on the requests outlined by the CPG and the Government of Myanmar. The Contract is envisaged to start by October 2018 and services will be provided for a maximum of 10 months.

The duration of this contract is established in 10 months. By the end of this period AICS-Y will check the subsistence of the needs for CPG and MoPF-FERD, verifying also if the content and the organization of the requested TA competences persist in the form and duty set in this bid.

The total amount available under the contract is up to EUR 58,300.00 for the whole period of duration (10 months).

## **3. OBJECTIVE**

The purpose of the Contract is to provide timely access to a range of high-quality Technical Assistance services within the project activities of the Italian Agency for Development Cooperation – AID 11087.

The detailed work plan will be agreed with the DCS, to ensure up to date alignment of tasks with the current CPG priorities.
